

SYSTEMATICS 2008

7-11 April 2008, Göttingen

(www.systematics2008.com)

Welcome

It is a pleasure to invite you to the international conference "Systematics 2008" to be held in Göttingen, Germany, 7-11 April 2008. Systematics 2008 is the first joint meeting of the Gesellschaft für Biologische Systematik (GfBS) and the German Botanical Society, section Biodiversity and Evolutionary Biology (DBG), being the *10th Annual Meeting* of the GfBS and the *18th International Symposium "Biodiversity and Evolutionary Biology"* of the DBG.

Venue. The congress will take place in the Central Lecture Hall Building ("Zentrales Hörsaalgebäude", ZHG) of the University of Göttingen, conveniently located near the city centre at 5-10 minutes walking distance from the train station. For further details see under "Venue".

Programme. The conference programme will be very broad, covering biological systematics in the widest sense and providing ample opportunities for oral and poster presentations on new advances in plant, animal and microbial systematics. Three plenary morning sessions with invited speakers will focus on "Progress in Deep Phylogeny", "Speciation and Phylogeography", and "New Trends in Biological Systematics". Afternoon sessions will feature contributed talks and poster sessions. For further details see under "Programme" or click [here](#).

Conference language: English.

Robbert Gradstein and Rainer Willmann
Organizers

The conference is supported by

Niedersächsisches Ministerium
für Wissenschaft und Kultur
